Number 3

## JUDGE CABOT, EX-PRESIDENT OF BOARD OF TRUSTEES, DIES AT MASSACHUSETTS GENERAL

On January seventh Judge Frederick Pickering Cabot, ex-President of the Board of Trustees of Governor Dummer Academy, died at the Massachusetts General Hospital. Judge Cabot served on the Board of Trustees from 1909 until 1924. From 1910 until 1923 he was Treasurer and in 1923 and 1924, President of the Board. Throughout the period of his service he was active in the interests of the Academy, giving generously of time and money and making possible many improvements in the plant. The present water system was installed during his administration, and several new buildings were erected. More important than the material improvements which he sponsored were the inspiration and encouragement he gave to those who were associated with him in promoting the interests of the school.

The same qualities which made Judge Cabot such a valuable friend to the Academy made him an outstanding man in his profession. He was graduated from Harvard College in 1890 and from the Law School in 1893 and was professionally active from then until his death. Since his appointment in 1917 he had served as Judge of the Juvenile Court of Boston and showed such a deep understanding of the problems of children that President Hoover invited him to serve as a member of the President's Committee on the White House Conference on Child Health and Welfare. At the time of his death one of his colleagues said of his work, "His friendliness and patience were so great that he made the most obstinate or stubborn child understand the respect for law and the authority of parents."

The esteem in which Judge Cabot was held by his contemporaries is shown by the number of important offices he was called upon to fill. Besides serving as President of the Board of Trustees of Governor Dummer, he was an Overseer of Harvard College, President of the governing board of the Harvard Union, President of the Board of Trustees of the Boston Symphony Orchestra, member of the Council of Radcliffe College, and Trustee of Wentworth Institute. In many ways Judge Cabot left his mark on the life of his fellows, but perhaps his greatest contribution was his leadership in substituting a sympathetic study of juvenile delinquency for the harsh punishment of earlier days.

## RECONSTRUCTED TELESCOPE PERMITS STUDY OF STARS

Through the generosity of Mr. James Duncan Phillips and Mr. Fred S. Smith of the Board of Trustees, the five-inch refracting telescope which for some time has been in disuse because of a broken gear in the mounting has recently been repaired by the makers and is now again available for the study of the stars. The clear nights of the past week have encouraged many of the boys to attend the sessions which Mr. Kirk and Mr. Brodhead have been conducting after study hall in the evening.

The telescope, which has an unusually fine refractor, was originally the property of Mr. Percy Chase of Topsfield, Mass. At his death in 1914, it was presented to the Academy by Mrs. Chase and has been a cherished possession of the school since that time. It is valued at seven hundred and fifty dollars and was made by Alvan Clark and Sons of Cambridge. It is equipped with a double eyepiece, one lens of which has a magnification of one hundred and the other of two hundred and twenty-five. The mounting includes a gear train which permits the telescope to follow the course of a moving star. At present it is used on a tripod, but it is hoped that a pier may be constructed to give greater rigidity to the mounting and permit more accurate observations.

## MR. EDWARD T. HOGENAUER ADDED TO ACADEMY FACULTY

At the beginning of the winter term Mr. Edward T. Hogenauer of New York City became a member of the Governor Dummer faculty. Mr. Hogenauer is a graduate of Haverford College in the class of 1929 and a member of Phi Beta Kappa. At Haverford he was a member of the varsity football and baseball teams.

Since his graduation from Haverford he has travelled and studied in Europe as a Swiss-American exchange student until last fall, when he returned to America and decided to enter the teaching profession. At Governor Dummer Mr. Hogenauer is teaching classes in French and in mathematics, and is assisting in dormitory work and in athletics. The addition of Mr. Hogenauer brings the Governor Dummer faculty to fourteen.

DECEMBER AND JANUARY  
HONOR ROLLS INDICATE  
HIGH GRADES IN SCHOOL

Two Honor Rolls have been announced since the last issue of *The Archon*. Mr. Nash points out that the December Honor Rolls are unusually high for that month, and that the averages for January are much better than those of last year. Both rolls follow:

December	January
<i>First Honors</i>	<i>First Honors</i>
*G. Albert Disbro	*Louis Wyman
*William Johnson	*Ernst Krippendorf
*Martin Gowdey	*William Johnson
*Ernst Krippendorf	*Martin Gowdey
*Louis Wyman	Everett Black
James Connolly	David Tatman
<i>Second Honors</i>	<i>Second Honors</i>
*Parker Kitchell	*Parker Kitchell
George Tryon	George Tryon
William Henneberry	Augustine Conant
Robert Porter	*G. Albert Disbro
H. Shaw Carter	H. Shaw Carter
Edward Rayher	William Buechner

\*Indicates those on every Honor Roll.

GLEE CLUB WILL GO TO  
NEW YORK FOR ANNUAL  
SCHOLASTIC CONTEST

The Glee Club, under the direction of Mr. Arthur Sager, this year surpasses even last year's club. Using the remainder of the organization of last year as a nucleus, Mr. Sager has built up a larger and stronger group including the many new voices of good quality which were discovered and are now being developed.

The first performance given by the Glee Club was at the football banquet just prior to the Christmas vacation. The club did remarkably well at that time considering the small amount of practice. Since then, the club has progressed steadily under Mr. Sager's direction, and Tuesday noon, February second, when the group entertained the Newburyport Rotary Club at its weekly meeting, the Rotarians were all interested and pleased with the performance.

On Saturday evening, February 20, at eight o'clock, the Glee Club will participate in the annual concert held by the Intercollegiate Musical Council of New York. This concert, which is to take place in the New York Town Hall at 113 West 43rd. Street, is held to determine the best glee club among the schools. The list of competitors this year includes Moses Brown School, Deerfield Academy, Governor Dummer Academy, Horace Mann

School, Pawling School, The Peddie School, Riverdale Country School, Storm King School, and The Tome School.

Each glee club is to sing three songs, one of which is to be the prize song, *High Barbary*. The two remaining songs are to be a choice selection and the school song. Mr. Sager has chosen *Goin' Home* as the Glee Club's choice.

NEWS PHOTOGRAPHER SHOWS  
ENTERTAINING PICTURES

Mr. Alton Hall Blackington, lecturer and news photographer, made his second appearance before the school at the first Saturday evening entertainment of the winter term. As in his performance of last year, Mr. Blackington's lecture was accompanied by numerous lantern slides, and this year he also used a moving picture projector.

A very interesting movie of the damage caused by the heavy seas pounding on the beaches of Hampton and Lynnh was shown; and there were also films of Mr. and Mrs. Coolidge, Colonel Lindbergh, and a special film of a trip to the summit of Mt. Washington. The lantern slides included scenes of national interest such as views of Cape Cod, the refitting of the Constitution, the disaster of the S-4, the drydocking of the Leviathan, and slides of the late Sir Thomas Lipton, Babe Ruth, and the ever-popular Will Rogers.

Mr. Blackington also showed many pictures of fires and accompanied his lecture with examples of trick photography which showed how easy it is to deceive the eye by tricks of the camera.

CAPT. JOHNSON SHOWS FILM  
OF TRIP AROUND CAPE HORN

Captain Irving Johnson entertained the school on Saturday evening, January 30, with a very interesting account of a voyage around Cape Horn on a four-masted sailing vessel. Captain Johnson was introduced by Mr. Charles D. Brodhead of the faculty, who was a shipmate on the voyage around the Horn.

Captain Johnson, who had visited Mr. Brodhead at the school before and had gained something of a reputation as a strong man, began the entertainment by showing a trick that he and Mr. Brodhead had practised on the trip. Sitting beside him on the floor, Captain Johnson lifted Mr. Brodhead with one hand and then rose first to his knees and finally to his feet, still holding his erstwhile shipmate at arm's length above his head. A patent exerciser consisting of two handles and

THE PEKING

On This Beautiful Four-masted Sailing Vessel Mr. Brodhead and Captain Irving Johnson Made the Voyage Around Cape Horn.

a number of detachable elastic cords was then offered him. No one about the school had been able to do more than barely stretch it with seven of the cords attached, but Captain Johnson attached all ten and easily stretched it to full length.

Afterward Captain Johnson showed four reels of movies he had taken during the three months' trip around the Horn in the *Peking*, a four-masted sailing ship which plies between Hamburg and the nitrate ports of Chili and serves as a training ship for the German merchant marine officers. The films included some excellent pictures of the ship under full sail and of the monstrous seas encountered during a four day storm off the Horn. Captain Johnson's comments on the pictures and his account of the life on such a ship made the evening's entertainment one of the best of the year.

---

ROBERT LINCOLN O'BRIEN  
WILL DISCUSS LIFE OF LEE

The entertainer on Saturday, February 13, will be Mr. Robert Lincoln O'Brien, who will discuss the life of General Robert E. Lee. Mr. O'Brien, who was recently appointed by President Hoover to the Tariff Commission, is one of the most distinguished journalists and public men of New England. He began his

career shortly after graduating from Harvard in 1891 when he became personal secretary to President Grover Cleveland. Subsequently he was Washington correspondent of the *Boston Transcript* and later editor of the same paper. In 1910 he became President of the Boston Publishing Company and Editor of the *Boston Herald*, a position which he filled with distinction for many years.

---

DEATH CLAIMS FORMER  
HEADMASTER AND DIS-  
TINGUISHED ALUMNUS

At Derry, New Hampshire, on January 5, died Mr. Perley Leonard Horne, A. M., from 1896 to 1904 Headmaster of Governor Dummer Academy. Mr. Horne's contribution of eight years of faithful service to the Academy entitles him to the respectful remembrance of all those interested in Governor Dummer.

In the death of Professor Charles Hunkins at Ipswich, Mass., on December 31, the Academy lost a distinguished alumnus. Professor Hunkins was a student at the Academy during the headmastership of the late Mr. John W. Perkins, a graduate of Dartmouth College and of the University of Paris. For many years he was a member of the faculty of Brown University and during the war he served as censor attached to the press bureau.

MR. CARROLL PERRY AND DR.  
ARTHUR LEE KINSOLVING  
AMONG VESPERS SPEAKERS

The Vespers speakers have been exceptionally good during the preceding month and have attracted a number of guests to the Sunday evening services. Mr. Carroll Perry, a member of the Board of Trustees, was the first speaker of the winter term. Dr. Arthur Lee Kinsolving of Trinity Church, Boston, spoke on January 31, and the other speakers have been equally interesting.

The Reverend Mr. Carroll Perry of the Church of the Ascension in Ipswich addressed the school on January tenth. He urged the boys to adopt their own religious ideas. He said that although it is easier to follow without investigation the ideas of others, we should all sound the various beliefs and, having found one to ring true, let it guide us through life. He pointed out that *even though* a man should study the stars, he cannot change the condition of this earth; likewise one cannot improve one's own condition by the study of other men's ideas. The best thing to do is for each one to settle his own life-problem for himself.

*The Reverend Mr. McCartney of Byfield Parish Speaks on Change*

On Sunday, January 17, Mr. Henry H. McCartney of the Byfield Parish Church spoke to the students at the evening sing. Mr. McCartney spoke on the "Challenge of Change".

We are living, he said, in a time of great changes in government, economic conditions, and customs. Philosophers and historians are attacking ancient beliefs, and people are too willing to accept blindly the conclusions reached by such men. What each man needs to do, Mr. McCartney said, is to bear in mind that there are moral values which do not change and that the need for faith is everlasting. Bearing in mind these things, the modern man must make the changes in the form and dogma of his religion that seem necessary, must have the courage to discard those things that are shown to be false, but must hold steadfastly to the principles which are lasting.

*Mr. Buell Trowbridge of Andover Faculty Discusses Problems Facing Present Generation*

On Sunday, January 24, the school was extremely fortunate in having as the speaker at the Vesper Service, Mr. Buell Trowbridge, a member of the faculty of Phillips Andover Academy. Mr. Trowbridge, who is a graduate of Cornell University and was a student at Oxford, spoke on the great problem which

must be solved in the near future by the present generation. That problem is war and disagreement among nations, and every year it becomes more critical. To show the grimness of war, Mr. Trowbridge described the lives of two men who were ruined by the world war. In conclusion he said that if America were to refuse Europe aid in the present crisis, the whole continent would become bankrupt. He said that it was up to us, the incoming generation, to decide this problem, and that we would have to turn from our present type of citizenship to that of world citizenship.

*Dr. Arthur Lee Kinsolving of Trinity Church Addresses Vespers on January 31*

The Vespers speaker on January 31 was the Reverend Dr. Arthur Lee Kinsolving, Rector of Trinity Church, Boston, and formerly Director of Religious Activities at Amherst College. Dr. Kinsolving comes of a distinguished family of churchmen and is himself one of the most influential men in New England religious work today.

Dr. Kinsolving spoke on the text, "Ye are the salt of the earth," and attempted to show what Christ meant when he addressed those words to the group on the side of the mountain. We use the same expression today as a compliment, but Dr. Kinsolving pointed out that Jesus probably had a much more exalted thought in his mind. He was relying on that group and on similar ones who had had the privilege of hearing his gospel at first hand to give flavor and direction to the world's spiritual life. The fishermen to whom he spoke knew salt as a preservative, and Christ meant them to understand that on them devolved the duty of saving for future nations the truths which he was teaching them. Salt is also valuable for its faculty of bringing out the finest flavor of foods. His teaching was designed to bring out the most glorious aspects of life, and his hearers were to be his disciples.

Dr. Kinsolving pointed out that the world today has as great a need of salt as it did at the time of Christ. It needs men to preserve what is noble in our civilization and men to teach the world the way to nobler, less selfish living. Who, he asked, are the salt of the earth today?

*The Reverend Mr. Daniel Bliss Shows Function of Prayer*

On Sunday, February seventh, the Reverend Mr. Daniel Bliss, Assistant at the Old South Church of Boston, spoke on the function of prayer. He said that the triangular debate on the existence of a God which is being held in the pages of the *Christian Century* indicat-

THE REVEREND MR. CARROLL PERRY

The New Member of the Board of Trustees is Here Shown in His Study in the Rectory of the Church of the Ascension at Ipswich.

ed a growing tendency to atheism, agnosticism, and a kind of materialism which recognizes the existence of God but ignores his connection with life and which is the most dangerous of the three. As in earthly companionship, he said, there must be communication between God and man—God's share is the inspiration he sends us, and our reply must be by means of prayer, not the kind which ignorantly asks for things that God can not possibly grant, or the kind which is offered as a substitute for intelligence and hard work, but the kind which asks for courage and strength to work out our own salvation.

#### OUTING CLUB PLANS

##### SEVERAL NEW TRIPS

On Monday evening, January 25, the first organization meeting of the Outing Club was held in the Noyes Memorial Library. At the beginning of the meeting, Mr. Jacob, the advisor, showed moving pictures of one of his mountain trips.

It is expected that this year's Outing Club will be larger and different from that of last

winter. Three trips are being planned for the winter term, probably two of them being to Mount Chocorua, and the third to Carter Notch at the foot of Mount Washington. In the spring there will probably be three or four trips. Two of them are to be excursions to Mount Washington and Mooselaukie.

#### SMITH COLLEGE CLUB HOLDS DANCE IN LANG GYMNASIUM

On New Year's afternoon the Smith College Club of Newburyport held a supper dance in the Lang Gymnasium. Mrs. Edward Eames and Miss Ruth L. Connolly were members of the committee in charge with Mrs. Francis Kitchell. The decorations consisted of a wealth of Christmas trees and a great number of small lights loaned by Mr. Robert J. McKinney of Newburyport.

Around the edge of the dancing floor was a row of tables at which the guests sat between dances and where they ate the buffet supper served at intermission between six-thirty and eight. Dancing, which began at four o'clock, continued until nine.

### RICHES

Money is not everything, as every man should know. Money will buy entertainment, pleasure, comfort, and many other things; but the greater, more worthwhile, and more lasting things cannot be bought with it. H. G. Wells, giving the reasons for the failure of Rome, says, "It gave government to the rich, and imagined that wise men could be bought and bargained for in the slave markets when they were needed."

Those things that are greater than money have to do with the mind. School work, for instance, should not be judged by its utility in earning money. Rather should it be judged by its worth in building character. Leadership is more often developed in institutions of learning than it is in business. And finally there is greater opportunity to learn how to enjoy life in school than after starting in business. After all, our happiness does not depend on our ability to earn money but on our ability to enjoy life. To enjoy life we must develop a love for the finer things that life has to offer. We must cultivate a love of nature, of good books, of good music, and above all, a love of the people around us. When we have acquired a love of these things,

we feel the real thrill of living. We feel that we have something that can not be taken from us. Let us not make money our ideal, but let us strive for these greater, wider, less worldly things.

### INFORMAL NOTES

On Monday evenings Mr. Eames has been reading poems and articles to the student body during the usual evening meeting at seven o'clock. On January 25 he read Amy Lowell's *The Bombardment*, Robert Frost's *Stending Wall* and *Skater at Night*, one of the lesser-known poems of William Rose Benet. On February first, he read selections from William James' essay, *Memory*. The boys seemed deeply interested in both readings but especially in the poetry.

The hockey squad deserves to be complimented on its fine work. Having had only one day of practice on the ice, they were able to defeat their first two opponents. The first game was played against Deerfield in the Springfield Arena, and the second against Thayer Academy in the Boston Arena.

A number of the boys and several of the masters have had an opportunity on the recent clear nights to see some of the splendors of the heavens through the school's beautiful five inch refracting telescope. Thus far it has not been possible to give the entire school this opportunity, but it is hoped that in the near future it can be arranged.

Weldon Ray, one of last year's graduates and now a freshman at M. I. T., returned for a visit to the school recently. Weldon still leads his class in chemistry.

It is pleasant to record at this time when the wrestling team is having a rather poor season that two members of last year's team are making good records for themselves in college. John Young, Captain of the Governors' team last year, holds the 155-pound position on the Harvard Freshman team and has been a consistent winner. Notable victories were those against M. I. T., Brown, and Springfield. Otto Thelen, also a member of the team last year, won a place in the 155-pound class on the freshman team of Massachusetts Institute of Technology.

We should like to take this opportunity to welcome the most recent addition to the faculty, Mr. Edward Hogenauer, to the school. Although, he has been here only a short while, he has already won the esteem of student body and faculty.

THE CAMPUS AFTER A STORM

Showing Parsons School House, the Commons, and the Mansion House Lawn After the Storm of January 27.

DR. INGHAM URGES CONSER-  
VATION OF CAMPUS TREES

During the past summer Dr. Charles S. Ingham, Mr. Eames' predecessor as Headmaster of Governor Dummer Academy, compiled a history of the trees surrounding the school buildings. John Ropes, a student, made a scale drawing of the campus showing the position and kind of each of the larger trees, and on the drawing Dr. Ingham noted the history of most of the trees, many of which had been planted during his administration or within the memory of men active in the affairs of the school at the time that Dr. Ingham became Headmaster. The chart is now preserved in the Mansion House as a permanent record, and at the request of the editors Dr. Ingham has contributed the following article to *The Archon*.

"I suppose there is but one tree that may have been on the grounds when the Governor was alive, though many of the trees are very old. That one is the old apple tree just south of the Commons. It is nearly gone now but bravely puts forth a few leaves each spring and, usually bears a few excellent Greening apples. When I first saw the Academy, all the space south of the Commons was full of apple trees except the lawn in front of Mason Cottage. That space was occupied by the cellar of a dormitory built forty years ago and

burned soon after it was completed. The pines, the old maple, the larch or hackmatack and some others are more than a century old. I like to think of those veterans and the things that have happened under their spreading branches. It is said that the oldest living thing on this earth is a tree. One of the Big Trees of California must have been quite a tree when Moses was leading the Children of Israel out of Egypt, 1500 years before Christ.

"I know of nothing more satisfactory in out-of-door sports than planting a tree. You put it in the earth, forget it and later find that it has grown into a thing of beauty without your doing anything more. Years ago Mr. Sleeper called my attention to three elm shoots growing at the back of the Mansion near an old apple tree. We cut out two of them but left one about three feet high, to grow if it would. Last June, I stood beside it again and found that it was nearly six feet in circumference. The big ash tree in front of the house was set out many years ago by Judge Northend's father. The Judge used to tell that he remembered asking the Master if he might cut it for a baseball bat. It was then just the right size!

"Upon the hill south of the school there are twenty thousand or more young pines and spruces growing. Every spring for the past decade we have planted more and more there in the hope that some day all that space on

Broadback and around the tower might be a pine grove as a background for the school that is to be. Only one thing is likely to prevent this now and that is FIRE. A match or cigarette stub may wipe it all out in a few hours so I hope the boys as they come and go will guard those trees as their own. There is still some land unplanted up there and I hope the planting will go on and that boys now in school will want to see 'their trees' as they come back to the old school in the coming years.

C. S. Ingham"

---

HOCKEY TEAM DEFEATS  
DEERFIELD AND TABOR  
BUT LOSES TO ANDOVER

---

Because of lack of ice, the Deerfield game, scheduled for January 23 on the Governors' rink, was played in the Springfield Arena. The team was forced to leave the school early in the morning in order to make such a long trip, but the strain of the journey did not seem to affect the ability or the sportsmanship of the team, which was victorious over Deerfield. 6 - 4.

It was the opening game of the season for both teams, and both had been kept from practice because of the lack of ice. There was, therefore, little good team play, although our forwards from last year, Captain Chase, Howard Walker, and Calvin Eldred, swung quickly into their old form. Captain Elwood Chase opened the scoring in the first period, and his point was quickly followed by two tallies by Walker. Deerfield tied the score in the second period but Eldred and Walker then scored a goal each to give the Governors the lead again. Deerfield, led by Bogardus, shot the puck in for its fourth goal just before Chase made the final goal for Governor Dummer.

Walker, Chase, and Eldred played at their best in the forward line, while Frederick McIntire and Louis Sumner did fine work on the defense. Of the new players, probably Zigmund Rogers showed himself to be the best material for the defense. Jim Smith, in the goal, played as fine a game as anyone on the ice, keeping himself alert and continually following the play.

*Governors Win From Tabor Academy  
at Boston Arena*

On Saturday, January 20, the Governors won their second victory by defeating Tabor Academy, 2 - 1 in the Boston Arena. Like the Deerfield game, the game with Tabor was originally scheduled for the Governor Dum-

mer rink; but lack of ice made it necessary to secure the arena.

The entire game was hard fought, although it seemed that the Governors outplayed the Tabor team in several respects. During the first period neither team could score, both goalies making many fine saves. Early in the second period Way of Tabor scored, but immediately after the face-off, Henneberry evened the count. Rogers made the other goal for the Governors during the first part of the last period.

The Governors were still handicapped by lack of practise in this game, as was Tabor; and the game was marked by individual work rather than by team work. Captain Chase, Howard Walker, William Henneberry, Zigmund Rogers, and Louis Sumner all showed flashes of form during the game, and James Smith did outstanding work at the goal.

*Governors Lose Hard Game to Andover*

On February third the Governors' hockey team suffered its first defeat of the year when the Andover sextet won a two to one decision in a hard, fast game on the Andover rink. Altho' the Governors seemed to be the aggressors throughout the first and third periods, they were unable to score until nearly the end of the third period, when Walker beat the Andover goalie for the Governors' only score. Meanwhile Andover had scored in the second and third periods, and had settled into a steady defensive game.

Andovers' second score occurred when James Smith, the Governors' goalie, came out of the cage to make a difficult save and was carried to the ice by Walker, who tripped as he was rushing in to aid in the defense. Otherwise the Governors seemed to be playing superior hockey during the whole last period.

---

SECOND TEAM LOSES TO  
IPSWICH AND MELROSE

---

The second team opened its home season on Wednesday, January 20, by losing a fast game to the Melrose High School second team, 17 - 11. The game was played in the Lang Gymnasium on the same afternoon that the Governors' first team won a 20 - 16 decision over the Melrose first team. The two games were played in alternate halves, the second team being the first to go into action.

In the second team game there was plenty of action and much good individual work but not much team work. The Governors used their entire squad, and the frequent substitutions no doubt accounted partially for the failure of the team to show the team play which characterized the first team game. Mc-

Kenzie of Melrose was the individual high scorer with a total of nine points. Irving Whiting and Charles Caddoo did the best work for the Governors.

In their first game, which was played with the Ipswich High School team at Ipswich on January 15, the Governors' second team failed to develop any passing game and were defeated, 21 - 19. Charles Caddoo was high scorer, and Albert Disbro showed to good advantage, being largely responsible for keeping the game as close as it was.

Captain William Mack

---

**BASKETBALL TEAM WINS  
FOUR OUT OF SIX GAMES**

---

The Governor Dummer basketball team opened its season on Wednesday, January 20, at the Lang Gymnasium by defeating the Melrose High team by the score of 20 to 16 in an active afternoon game. Considering the fact that this was the first game of the season, the Governors showed flashes of good team play, individual strength, and fair shooting ability. The defense of the red team was exceptional throughout the first three periods, but weakened in the final period when the substitutes took the places of the regulars.

During this final period the Melrose players made four or five excellent field goals.

Captain William Mack showed great qualities as a leader and was the key-man of the Governors' defense. Arthur Giovannangeli was the high scorer of the day with a 9-point total, which included four field goals. Jack Cushman was in good form and played a very strong game. His floor work and his fine jumping at center gave the Governors many scoring chances. Smith of the Melrose team played a splendid game of basketball, and his three field baskets in the final period reduced the Governors' lead.

*Governors Win From General Electric Team*

In the Lang Gymnasium on Saturday evening, January 23, the Governors won a 39 to 27 victory over the strong team from the General Electric Apprentice School of Lynn. The game was fast throughout, and it wasn't until the last period that the Governors' superior team play gave them a decisive lead. The squad showed a great improvement in shooting since the Melrose High game. Giovannangeli was high scorer for the evening with eight field goals; Captain William Mack accounted for four more while playing his usual steady defensive game; and Herbert Deuel made two long shots from the floor during the evening.

Several long shots by Barber gave the General Electric team the lead during the opening period, but a rally to which every member of the team contributed gave the Governors an 8 - 7 lead at the quarter and an 18 - 14 lead at the half. In the third period the General Electric team again took the lead for a time but were unable to hold it against the fast passing and accurate shooting of the Governors.

*Governor Dummer Defeats Lawrence 41 - 33*

The Governor Dummer basketball team atoned for the single football reversal of last fall at the hands of Lawrence Academy by defeating the Groton boys at South Byfield on January 27 by a 41 - 33 score. The game was a nerve-racking, hard fought, and clean struggle between two speedy teams. In the first half the Governors displayed magnificent form and jumped away to a 25 to 13 score at the half, mainly through the brilliant work of Arthur Giovannangeli, who scored seven baskets. Early in the second half Lawrence made a beautiful comeback, coming within a single basket of tying the Governors. Charles Caddoo played center in the absence of Cushman, and did an excellent job. Stanley Sarnecki played a fine game at guard, scoring eight very useful points. Fuller was the outstanding player for Lawrence.

## *The Archon of Governor Dummer Academy*

### *Governors Lose to Andover*

The Governor Dummer Academy basketball team lost its first game of the season on January 30 at Andover by the score of 26 to 23. Andover jumped into the lead at the start and was never headed throughout the remainder of the contest, although the Governors made a determined effort in the closing minutes of play. The Andover team had the Fordham style of cross-court pass work which the Governors had never met before. Sweet and Kellogg were the outstanding stars for Andover, while Giovannangeli and Captain Mack led the Governors' attack and Deuel played a fine defensive game. However, the team was unable to come through in the pinches.

### *Governors Lose Return Game at Lawrence Academy*

The Governor Dummer basketball team lost a hard fought game at Groton, Wednesday evening, February third, when Lawrence Academy came from behind in the last period to win by the score of 37 to 27.

The Governors took the lead in the first period when Jack Cushman made two field goals and a foul, and the period ended with the Governors leading, 8 - 5. In the second period both teams played beautiful basketball and many sensational baskets were scored. The Lawrence team tried hard to gain the lead but the best it could earn was a 15 to 15 tie just before the end of the period. Field goals by Deuel, Giovannangeli, and Caddoo gave the Governors the lead at the half, 22 - 17.

In the second half the Governors ran into difficulties and although they tried shot after shot at the Lawrence basket, they scored only two field goals and one foul. In the meantime the Lawrence team forged ahead, owing mostly to the superb shooting of Johnson, who made ten floor baskets during the game, many of them sensational ones. The period ended with Lawrence Academy in the lead by a 27 to 24 score. Johnson, with the help of Adzgian and Captain Fuller, made more bas-

kets in the final period to score a decisive victory.

### *Governors Rally in Last Period to Win From Rindge Tech, 42 - 29*

The game between the Governors and Rindge Technical High School of Cambridge on Saturday evening, February sixth, proved to be the most exciting of the season. It was an extremely hard fought battle, during the first half of which the Rindge team very definitely outplayed the Governors and gained an 18 - 11 lead. The visitors made two baskets in the opening minute of the game, paused while the Governors made three, and then drew rapidly away from the home team. Toward the end of the half the Governors' defense stiffened but they were unable to cut down the lead.

At the opening of the second half two quick baskets brought the Governors to within three points of their opponents, but it was not until the end of the third period that they gained the lead. During the final period the Rindge team was unable to stand the pace and fell rapidly behind the Governors, who showed for the first time this year the speed and strength which the individual brilliance of the players had promised in earlier games. Captain William Mack played an excellent game throughout, his steadiness and determination probably averting disaster in the first half. Herbert Deuel was also at his best for the evening and contributed several fine shots and some excellent guarding. Arthur Giovannangeli started slowly but came through in the second half with eleven points making him high scorer. Stanley Sarnecki was second with nine, and John Cushman of the Governors and Byington of Rindge Tech were tied for third with eight points each. Charles Caddoo, who played at center during part of each half, played an excellent game. Irving Whiting and Tommy Lyne replaced Giovannangeli and Sarnecki in the last period and showed that the Governors have considerable reserve strength.

THERE'S A REASON

WRESTLERS BEATEN BY  
ANDOVER, NEWBURYPORT,  
AND BROWNE AND NICHOLS

The Governor Dummer wrestling team, coached by Mr. Brodhead, lost its opening meet to the Newburyport Y. M. C. A. team on January 16. Mario Fernandez, the Governors' representative in the 115-pound class, was the only one of the team to throw his opponent. He deserves the more credit for his victory in that he was handicapped by a time advantage his opponent had gained at the opening of the bout. Captain Terry Staples, 145 pounds, was thrown by his opponent in seven minutes and forty-six seconds.

J. Albert Hessian, 135 pounds, lost by a decision to Griffin of the Newburyport team. The other members of the team were Reginald Morrill, 125 pounds; Seth Martin, 135 pounds; Jose Beola, 155 pounds; Walter Comfort, 165 pounds; and S. Forbush McGarry, heavy-weight. All were thrown by their opponents, giving the Y. M. C. A. team a 33 - 5 victory.

The wrestling meet held with Phillips-Andover at Andover on Saturday, January 30,

was a disastrous one for the Governors, who failed to take a single bout. Several members of the team did, however, put up excellent fights against their more experienced opponents. Mario Fernandez wrestled on even terms with his opponent in the 115-pound class for the first five minutes, only to be thrown when he fell into a neck and crotch hold.

Reginald Morrill lost by a time decision in the 125-pound class after making a very fine struggle. Captain Terry Staples, 145 pounds, very nearly threw his man with a hammer lock, but Stratton, his opponent, worked out of it and finally took the bout. The other bouts were less closely contested, and it was apparent that the Andover team was stronger, man for man, as well as more experienced than the Governors.

The third meet of the season took place at Browne and Nichols on February sixth, and again the Governors were completely out-classed, failing to take a single bout. Although beaten as badly as at Andover, the team showed many signs of improved form. Reginald Morrill and Jose Beola, two of the most promising members of the team, were unable to compete because of colds.
